

RED CROSS NEWS AND NOTES

Peach Stones Galore.
There are nearly a ton of peach stones at headquarters. Fairview has sent in four barrels. As everyone knows these stones are to be used in making an exceptionally good quality of carbon, mixed with other chemicals. The stones are to be placed in a small receptacle on the outside of gas masks and the poisoned gas sent from the enemy is absorbed and made harmless thereby. Not only in Fairmont but all over the country people are saving peach stones for this purpose.

Wonderful Response to Belgian Appeal.
Three hundred brand new overcoats have been contributed by merchants in Fairmont and Worthington for the Belgians. Is not this a wonderful contribution? Red Cross workers, chapter officers and in fact everybody in Fairmont and Worthington should be proud and appreciative of the spirit manifested by these merchants.

Hurry Call for Seventy-five Sweaters.
Miss Wills Straight has supervised the making of one thousand, seven hundred and seventy-five sweaters for the month. It is urgently desired that good knitters come forward and take sweaters to complete by that time. As only a week remains in which to make these sweaters, this calls for special patriotism and love. Nearly half the amount desired have been taken out, so don't let anyone get ahead of you in getting the other half. If anyone has grey sweaters which have not been turned in, these can be used to fill this allotment.

An immense amount of fine Home Service work is being done in the city. Women are particularly giving time and heart to the work and in no city is the work being conducted with more tact and intelligence than in Fairmont. Thursday afternoon and evening the first of a series of lectures was given by Dr. L. M. Bristol on subjects of great importance to home service workers. The lectures are embodied in what is called a course of Home Service Information and about seven or eight ladies enrolled. Nearly one hundred ladies were present at both lectures. Dr. Bristol talked regarding all phases of home service work, including the manner of instructing soldiers' relatives in regard to their allotments and compensations where they needed such information, help in sickness and in want and various other kinds of help which home service workers could give.

Dr. Bristol will give two more lectures on Thursday of next week in the Deveny building in Elks' hall and the following week Mrs. Blanche Bartlett will lecture, ending the course. A large attendance should be present at all of the lectures for they are invaluable help.

KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful."

I could not do anything, not even sleep at night. It kept me awake most of the night. I took different medicines, but nothing did me any good or relieved me until I took Cardui.

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again. I decided I would try Cardui. By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well. If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial. NC-120

**MISSES THE RAIL
FENCES ON FARMS**
Otherwise Part of France Where Odell is Looks Like West Va.

Mr. and Mrs. A. D. Odell, of Worthington Route 1, have received the following letter from their son, Blain, who is serving "somewhere in France," probably not very far from the scene of the famous St. Mihiel fight, judging by the description he gives of the country:

Dear Mother and Father:—Will try and write a few lines to you to let you know I am well and in good health. France is some place. I like it better here than I did in camp in the states. It is not near as hot as it was in the camp I came from over there. The country is almost like it is around home except the fences. I haven't seen a farm fenced in with rails yet. They build a dirt wall and have only one or two stone or concrete pillars. They are all built of stone or concrete. We had a pretty nice trip across

DAILY HEALTH TALKS

A Single Remedy Often Cures Many Diseases.

BY VALENTINE MOTT, M. D. It is almost impossible to give a list of the endless diseases that follow indigestion. Perhaps a whole column in this newspaper would be required to print them all. You eat to keep alive—to supply blood and flesh and bone and muscle and brain. It is easy to see that if your food is not digested and taken up by the delicate organs distributed where it is needed, a disease of some sort is sure to come. Dyspepsia is a common symptom, and so are liver complaint loss of flesh, nervousness, bad memory, dizziness, sleeplessness, no appetite. Many results in coughs, throat diseases, catarrh, bronchitis and even more dangerous things. And as these disorders arise because the food is not properly digested in the stomach. It is plain even to a child that relief and cure are to be had only by setting up a healthy condition in the stomach.

Dr. Pierce, of Buffalo, N. Y., many years ago combined a number of vegetable growths into a temperance remedy for indigestion, and called it Golden Medical Discovery. It is probably the most efficacious discovery ever made in medicine for the list of people all over the world who have had their countless ailments overcome by Dr. Pierce's Golden Medical Discovery makes an amazing total of thousands. I know of no advice better than this: Begin a home treatment today with this good vegetable medicine. It will show you better than I can tell you what it will do. When taking Golden Medical Discovery, you can rest assured of one very important thing—it contains neither alcohol nor opiates. There is nothing in it but standard roots and herbs that possess curative properties of a high order. A safe medicine is the only kind you can afford to take.
